Make sure your kids get a chance to be the chosen artist for the 2024 Annual Woods Construction Christmas Card. Children 12 and under are welcome to enter a drawing. Submissions are due February 8th.

Woods Construction Cookbook

Send your recipes to Carl to be included in the Woods Construction Cookbook. Desserts, breakfast, dinner, snacks or dessert....nothing is off limits.

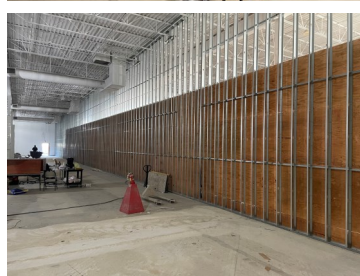

I Fixed It!

The first winner of the "I Fixed It!" program was Hank Hale. Congratulations, Hank! Hank will receive a pizza lunch for the entire crew of an upcoming job site. As a reminder, we will be drawing names for pizza parties once a month from the submissions. Submissions can be made on our website or by emailing Carl with 2 photos with a short statement about what was wrong (pic #1) and how it was corrected (pic #2).

Marshalls & HomeGoods of Ann Arbor

Here are some progress photos from the projects in Ann Arbor, where we are converting an old Bed Bath & Beyond into a Marshalls and a HomeGoods.

Safety Reminders

Send in proof of car insurance throughout the year to Carl/Sandy as your policy renews or you switch insurance.

When buying chemicals (glues, solvents, etc.) for the job site, please verify the chemical(s) are on the SDS BinderWorks list. If they are not in there, let Carl/Sandy know so we can get them added to our inventory. Keeping this data updated is not only safe, it will help eliminate any potential OSHA fines on inspection.

Your Guide to Cold Weather Safety

Cold weather brings its own set of challenges, but with the right precautions, you can enjoy the beauty of winter while staying safe and warm. Here's several cold weather safety tips:

- Stay Hydrated:
 - Cold weather can be deceptively dehydrating. Drink plenty of fluids to stay hydrated
 - Limit alcohol and caffeine intake, as they can contribute to dehydration.
- Stay Informed About Wind Chill:
 - Wind can significantly increase the risk of frostbite. Be aware of the wind chill factor.
 - Limit outdoor activities if wind chill conditions are extreme.
- Drive Safely:
 - Check your vehicle's antifreeze levels and ensure all fluids are topped up.
 - Keep an emergency kit in your car, including blankets, snacks, and a flashlight.
 - Keep an ice scraper in your car.
 - Keep a box of cat litter or sand in your car if you anticipate driving in the snow. It can be used to help get your car unstuck by providing traction.
- Be Prepared for Power Outages:
 - Stock up on essentials like non-perishable food, water, and blankets.
 - Have flashlights and candles ready.
 - Have a battery-powered radio to stay updated on weather conditions.

Remember, winter is a time of beauty and wonder, but safety should always come first. By taking these precautions, you can make the most of the season and keep yourself, your loved ones, and your community safe.

BUILDING AN EMERGENCY SUPPLY KIT FOR YOUR CAR

WHY?
Because you never know when you will encounter winter weather or an emergency road closure
